Fidelity Shout Out

Thank you for your help!

I want to recognize Nigel Dsouza for his guidance, dedication, and helpful knowledge share. We had an issue with could control-m and with no hesitation, he joined the call to guide us to the direction in finding the root cause. Not only did he find the root cause but came up with a permanent solution to fix the issue. He does show a can-do attitude. Greatly appreciate your time ,effort and the knowledge shared during the process!
