Fidelity Shout Out

Always For The Team

Nigel - i wanted to send out a special thank you for the support you provided to deployment issue yesterday. Your innovative idea helped team keep track of delivering what was planned. Your work ethic is exceptional and never short of ideas to overcome hurdles that team faces. You are always wiling to support folks across squads to help resolve issues, and yesterday was another such example. I always believe that one's success lies in team's success and you are upholding this. Way to go! Thank you!!
